Welcome to HBX Live!

In preparation for your upcoming HBX Live session, please review
the minimum technical requirements for participation on the platform.

HARDWARE REQUIREMENTS

- A modern laptop or desktop computer with one of the following operating systems:
  - Windows 7 SP1 or later, Windows 8, Windows 8.1, Windows 10
  - Mac OS 10.9, 10.10, 10.11
- Minimum CPU Speed and Type:
  - Mobile AMD Sempron Processor 3600+ at 2 GHz
  - Intel Core 2 CPU T7400 at 2.16 GHz

Headphones are required; headsets are preferred.

A built-in or external microphone (if not part of headset) is required.

A built-in or external webcam is required.

SOFTWARE REQUIREMENTS

- A compatible browser – the most recent version of either:

  Mozilla Firefox

  Google Chrome

- Administrative user privileges on your device to install software items, which will be provided to you by the HBX Live Team.

BANDWIDTH / NETWORK REQUIREMENTS

- A high-speed broadband Internet connection of at least 2 Mbps upload and download speed (faster is better) to our server located in Boston, MA USA.
  - Click here to test your internet speed.
- We strongly recommend connecting via a wired Ethernet connection instead of WiFi whenever possible, to maximize your connection speeds and reduce latency.
